PROFILE SUMMARY

Flutter Developer with 2+ years of hands-on experience building and maintaining cross-platform mobile applications using Flutter and Dart. Experienced in developing scalable, real-time service applications including Food Delivery, Grocery, Taxi Booking, and Parcel Delivery Management systems. Skilled in MVVM, Clean Architecture, and MVC patterns with Dependency Injection, Firebase Authentication, Firebase Analytics, Firebase Storage, Firebase Cloud Messaging (FCM), REST API integration, Razorpay payment gateway, and Google Maps integration. Proficient in GetX and Provider state management, with working knowledge of Bloc, Flutter animations, and Google Play Store / App Store deployment. Focused on writing clean, reusable, and performance-optimized code, with strong collaboration skills in agile team environments.

Skills

Languages: Dart

Frameworks & Technologies: Flutter, Firebase, REST API Integration

Architecture & Design Patterns: MVVM, MVC, Clean Architecture, Dependency Injection, OOPs Concepts

State Management: GetX, Provider, Bloc (Familiar)

Firebase Services: Authentication, Analytics, Storage, Cloud Messaging (FCM), Hosting

Integrations: Razorpay Payment Gateway, Google Maps

Tools & Platforms: GitHub, VS Code, Android Studio, Flutter DevTools, Jenkins (Basics), GitHub Actions (Basics)

Core Skills: Agile (Sprint-based Development), Responsive UI Development, Flutter Animations, Reusable Component Development, Manual Testing, App Performance Optimization, Play Store & App Store Deployment

Experience

Flutter Developer

Nov 2025 – Present

Feb40

- Contributed to the end-to-end development of a multi-service Flutter application integrating Food Delivery, Grocery, Taxi Booking, and Parcel Delivery Management systems, following MVVM architecture with Dependency Injection for scalability and maintainability.
- Set up Firebase Authentication and FCM for real-time notifications across order, delivery, and ride-status updates, and used Firebase Storage for media management.
- Integrated Razorpay for secure in-app payments and Google Maps SDK for live driver/delivery location tracking across taxi and delivery workflows.
- Built responsive, reusable UI components with Flutter animations, profiled performance with Flutter DevTools, conducted manual testing, and handled Play Store / App Store release builds.

Associate Software Engineer

Jan 2025 – Oct 2025

Success Life Mantra

- Developed frontend modules for a Social Media Marketing Tool using Flutter and React.js with CRM functionality, broadcast messaging, and subscription-based workflows, from planning through development and testing.
- Implemented dynamic UI flows, user role-based access, and scalable, reusable feature modules to improve usability, maintainability, and app performance.

Flutter Developer
Mindvision Technologies

Jul 2024 – Dec 2024

- Developed responsive Flutter UI components and integrated REST APIs for web and mobile applications.
- Collaborated with the development team to enhance application functionality, performance, and user experience.

Projects

Photography Studio Event Management Application — Freelance Project

- Developed a Flutter-based Photography Studio Event Management application for managing customer bookings, event details, photo selections, and delivery workflows using MVVM architecture.
- Built separate Admin and User modules with responsive UI, Firebase integration, reusable widgets, and real-time data management.
- Implemented authentication, booking management, and event status tracking, with optimized data handling that improved overall app performance.

Education

Sethu Institute of Technology
B.E in Electronics and Communication Engineering

Sept 2020 – Mar 2024

- CGPA: 8.6/10.0

V.H.N Boys Higher Secondary School
Higher Secondary Certificate, Computer Science

Jun 2018 – Mar 2020

- Percentage: 68/100
